

Happy
"Dog Days of Summer"
To Our Friends

My Dear Patients,

We have lots of exciting news here in August at THE CENTER for Advanced Dermatology!

1) Some of you have already met our new PA, Ms. Megan Rowe, who started in early August. Megan has 6 years of experience as a Physician Assistant working in the Glendale area. She is excited about her role in our office. PA Jamie Engstrom is once again in retirement, as she is adopting a three year old boy from Uganda. We wish her well in the growth of her family, and who knows if she will add a second little boy, or if she will be back soon!

2) Linda has added some more truly sensational pictures to our new Before and After Book. Our Natural Needling has revolutionized the treatment of acne and acne scarring, making scarring almost a thing of the past. The Natural Needling is a much more affordable and effective treatment with minimal downtime. We show the pictures of the acne, but the results are just as good for anti-aging! She also has beautiful results with the Fraxel laser for pigmentation on the face, the aging neck and chest. Now is the time to get your neck in shape, the next step will be the injection of the Kybella to dissolve

the fat and tighten the turkey! Kybella will be available next month, according to company reports.

3) Our next Botox/Xeomin Discount Day is September 10, and we still have appointments available. The discounted \$10/unit only occurs on the 10th of the month when it falls on one of Dr. Holy's work days, Monday through Thursday. Take advantage of the Medspa prices!

4) We have had a recent upsurge in men taking advantage of the aesthetic services in our office. Yes, men too, feel better and are more effective on the job when they look rested. From the removal of pesky skin tags to power rejuvenation, all procedures help men to be stronger, more effective businessmen.

Relax and enjoy our month of August, and the last few weeks of summer. We look forward to seeing lots of moms when the kids get back to school!

Warmly,
Dr. Holy
